

David Cory

Canada Excellence Research Chair at the Institute for Quantum Computing

Current Projects:

Magnetic Resonance and its applications, quantum information processing, quantum complexity, neutron interferometry.

Affiliations:

The University of Waterloo, Department of Chemistry

The Perimeter Institute of Theoretical Physics

Degrees:

PhD, Case Western Reserve University, 1987

BA, Case Western Reserve University, 1981

Awards & Honours:

Canadian Excellence Research Chair in Quantum Devices, 2010

Major Positions:

Professor of Chemistry	University of Waterloo	June 2010-Present
Associate	Perimeter Institute of Theoretical Physics	June 2010-Present
Professor	Massachusetts Institute of Technology	1992-2010
Chair, Advisory Committee	CIFAR Quantum Information Processing Program	2006-Present
